NORTHERN MICHIGAN.

Allis Correspondence.

MAY 7th, 1883.

Another great step in the rapid strides of improvement has been taken in placing the City of Cheboygan on Black Lake. Already the pulse of the "mossback" beats more rapidly in anticipation of a bright future, yet he cannot see how the boat can earn much money without being able to run up and down Black river.

The township board met last week at the Clerk's office and transacted some important business. Five town offices had to be filled by appointment.

A new burial ground is to be selected in Town 34, 2 east.

The fifth bridge is to be erected across Stone Creek and one-half mile of road made through a dense cedar swamp.

John Rodgers returned last week in company with his brother James, with a car load of live stock and all the implements necessary to make three good farmers happy in this garden of Presque Isle, if they could be happy without wives.

We are informed that several parties are extensively violating the fishing law in setting many large gill nets in Black Lake, but the officers are now fishing for the fishers.

Albert Poland has returned to his homestead and is preparing to erect a new dwelling.

Albert and Dana Robinson formerly from Cass county, are selecting some very choice tracts of land with a view to purchasing and settling here.

The winter wheat never looked better here and some beautiful droves of deer are continually trespassing on it, and as the "mossback" goes out and quietly drives them off, he sighs that the game law prevents him from feasting on some of them.

While this Garden can boast of no beautiful groves of fig trees, it still has some elaborate groves containing 7½ millions of pine that would not only buy Grandpa Adam and Grandma Eve some beautiful garments but build them a splendid mansion, S.

Mackinaw City Items.

From our own reporter.

Church social at the residence of Justice Stimpson. (Stimpson House) Tuesday evening last. A very pleasant time was enjoyed by the large number present.

Mrs. Bassett has been taken to Ann Arbor, leaving Sunday evening last, for the purpose of having an ovarian tumor removed. Her condition at the time of leaving was considered to be quite critical. The Michigan Central R. R. Co. granted passes for herself and Mrs. Templeton, who attended her.

A carload of whitefish, under direction of the State Fish Commissioner, for planting in the large lakes, arrived here Wednesday morning, enroute for Marquette. The water being rough the transfer could not be made until Thursday. 500,000 were deposited in the waters of our harbor, and then there were two million left to go on to Marquette. Information was given that between 35 and 36 millions have been planted this season.

The G. R. & I company are at work clearing up their grounds north of the depot, which adds greatly to appearances in that vicinity. The planing mill is rapidly nearing completion.

Mr. Triphagen, who has lately built a store here has rented the same to parties from Petoskey, and began the erection of another fine large building.

Mr. Willitt, brother of our postmaster, is expected to arrive soon from Lowell, Mich., and then we are to have another store.

GRAND TRAVERSE REGION.

Traverse Bay Eagle.—Over 100 men employed on the new asylum.—Contract let for new jail and sheriff's residence, to cost \$19,000; to be completed this year.—Foundation for new convent commenced, the size of the building to be erected this season 40x60 feet.—Winter wheat in that section looking healthy.—Edward Halet, of East Bay, lost wife and two children last week; died from scarlet fever.

Herald.—About 1000 trees were planted in Traverse City, Arbor day. Begonia didn't they do well.—Three hundred acres are being platted into lots in Oakwood.—The corner-stone of the new asylum was laid on Monday, April 23, and the work of building began in earnest Monday of last week.—The Herald gives a very interesting description of Hannah, Lay & Co's immense establishment. This firm uses more printer's ink than any other firm in Northern Michigan, and their success shows their wisdom.

Cadillac News.—Tank Kee will be in Cadillac shortly.—Pigeons reported plenty.—Water supply being extended rapidly throughout the city.—Decoration day will be observed.—Wants a base ball club so as to be in fashion.—Talking of a grand Fourth of July celebration.—The bottom of one of the lakes near the city

completely covered with dead perch. Supposed the lake froze solid during the winter, killing the fish.—Immigration set in from the west, five families recently arrived from Iowa.—The News was enlarged last week. Giddings had to do it to put in all the good things he had to say, and at the same time have room to accommodate his advertising patrons.—The merchants have signed an agreement to close their stores at 8 o'clock.

Charlevoix Sentinel.—Dredge will soon be at work digging out the bar at the mouth of the river.—One of the citizens building a new hall 60x61 feet; proposes to make it one of the best in Northern Michigan.—Claims the City of Cleveland and City of Mackinac will run to Charlevoix during July and August.—The Sentinel enters upon its fifteenth year and is a consistent advocate of the interest of the place.—Lots of new buildings going up.—Furnace going to shut down for repairs.

ST. IGNACE.

Free Press.—Wholesale liquor store soon to be opened.—Private parties want to lay mains to supply the people with water.—Parties prospecting with a view of establishing a telephone exchange. Mansion House closed by sheriff.—A furnace company teamster run over and one leg badly jammed.—Council ordered city surveyor to drive stakes for four miles of sidewalk.—A Mrs. Lightheart, of Newberry, forsook her Lightheart and took up with a Smith, and left on the City of Cleveland for a pleasure trip.

Republican.—A \$440 hearse been ordered.—That druggist agreement to keep closed on Sunday didn't last long.—Work on the six new cottages for the Mackinaw Lumber Co. begun.—One circular of the American Lumber Co's mill started up last week.—The Algoma goes to Detroit for repairs next week.—Jno. McKay spent several days with the saints, but not in a very saintly mind himself. He had chartered a sail boat to take him self and supplies to north shore, and could not get away on account of the north-wester prevailing.—The American Lumber Co's dock, with a capacity of 1,000,000 feet is ready to receive lumber.—The new court house approaching completion.

MACKINAC.

St. Ignace Republican correspondent.—The officials of the Dablia held an impromptu investigation of the disaster to the crew of the Spectacle Reef light. No one censured.—Capt. J. W. Bennett sailing the tug Oswego, one of Grummond's line.—How little it takes to make some men laugh is exemplified by the correspondent. He grinned all over just because the Cheboygan papers claimed it as the only point where the Algoma could make a successful crossing in winter, and then the City of Cleveland failed to come in one trip on account of the ice, and says: "I know that since the opening of navigation and up to this time (May 3) Cheboygan harbor has remained ice-closed, every other place about the straits being open and free of ice." While he was grinning he was writing, "the Keweenaw looked at us over a strip of ice on Sunday, but had not the pluck to try and pass it."—Seven brave soldier boys skipped from the fort between two days.—Dr. Bailey going to connect his store and residence by telephone.

MANISTIQUE.

Pioneer.—Liquor bonds placed at \$6,000.—Farmers urged to set out large orchards.—Need roads to enable them to get out of the woods.—Music teacher wanted.—Saw mills running and yards filling rapidly.—Talking of incorporating as a village.—Two more cribs ready to be towed out and sunk for the break-water pier.—The Major wants a town hall built.—Dwelling houses very scarce.—The dredge busy scooping out a channel in the harbor.

SAULT STE. MARIE.

Chippewa County News.—Geo. Kemp is agent for the Lake Superior and Lake Michigan Transit company.—They rejoice over the prospect of a mail five times a week from Detroit by boat.—A subscription paper circulating to raise funds to build a parsonage for the Presbyterians.—Government park being fenced, and over 100 trees planted out.—Are happy over the prospect of a bridge over the rapids, which means a through line of railroad from the great northwest to the east.—The Dahlia was the first boat, arrived May 3d.

HARBOR SPRINGS.

Independent.—Ice left the bay Thursday of last week, the latest date ever known.—Railroad company paid Mrs. Kerboski \$800 for injury received in an accident on the road last January.—J. H. Darlin while crossing from Cross Village to the Beaver island lost a horse; broke through the ice and drowned.—Very sickly on Beaver island this spring; six children died from scarletina in one week.—Mrs. J. E. Wagley of Cross Village died last Monday night.

Republican.—The new dock ready for planking.—The Champlain was the first boat, calling Tuesday.—Decoration day will be appropriately celebrated.—The City of Cleveland and City of Milwaukee will call weekly during the months of July and August.—Members of the Harbor Point Association expected daily.—Wequetonsing is the name of a summer resort near Harbor Springs.—Farmers in that section putting in large acreage of spring crops.

Married.

MACDONALD—PHILIP.—At Duncan City, on Thursday evening, the 10th inst., at the residence of the bride's parents, by the Rev. James H. Magoffin, Rector of St. James', Miss M. Marion P., daughter of William Philip, to Mr. Christopher Macdonald.

Notice.

COUNTY of Cheboygan.—Township of Beauregard. Notice is hereby given that all persons holding orders against the township of Beauregard, either for township, highway, or school purposes, are requested to file statement of the same with the Township Clerk, on or before June 1st, giving date, number and amount of order, and in whose favor the order was drawn, and all such orders not presented will be considered cancelled.

WM. J. EMBURY, Township Clerk.

Of Another Age.

Gradually Supplanted by a Better Article Certain Old Things are Done Away.

In the general reception room of the Western Union Telegraph building on Broadway, New York, are exhibited the coarse, crude and clumsy instruments of the infancy of the telegraph. They are only relics now. More perfect machinery has superseded them.

Years ago what is now styled the old fashioned porous plaster did some good service. There was then nothing better of the kind. Now all is changed. Science and study have gone deeper into the secrets of medicine and produced BENSON'S CAPSINE POROUS PLASTER, which embodies all the excellencies thus far possible in an external remedy. The old plasters were slow—the capsine is rapid; they were uncertain—the capsine is sure. Cheaper articles bear similar names. Be careful, therefore, that some thrifty druggist does not deceive you. In the centre of the genuine is out the word CAPSINE. Price 25 cents. Seabury and Johnson, Chemists, New York.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, as strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give address and P. O. address.
